

NEW YORK LIM WIT RADLER

Alcohol: 4%

IBUs: 16

SRM: 5.5 (Golden)

Grain Bill: NY Pale Malt, Malted Wheat

Hops: NY Cascade used for bittering and NY Perle used for finishing

Brewing Notes: Brewed with a majority of Malted Wheat and fermented at higher temperature with a traditional Hefeweizen yeast and Bittermens A Very Friendly and Cordial Lime all natural cocktail syrup

Tasting Notes: This beer is a hazy golden wheat ale, highly carbonated with a semi-thick white head. Lim Wit has an aroma that starts like a traditional Hefeweizen with notes of banana and clove, and it finishes with light lime. Also has banana and clove flavor to begin, finishing with slightly tart lime and a light refreshing mouth feel.

This is our take on the traditional Radler (German for “cyclist”), a light and refreshing “beer cocktail.” Bike not included. Now in adventure-friendly cans!
