

NEW YORK unCOMMON PASSION RADLER

Alcohol: 4%

IBUs: 14

SRM: 6.9 (Light Golden)

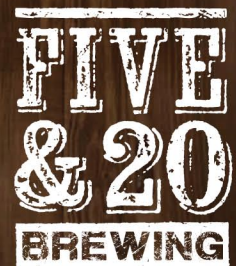

Grain Bill: NY Pale Malt, Malted Wheat, Munich Malt and Vienna Malt

Hops: NY Cascade added for bittering and aroma.

Brewing Notes: Brewed to be light in color and in mouth feel. Fermented with ale yeast at low temperatures makes this beer clean and crisp. Passion Fruit added towards the end of fermentation helps to retain the delicate flavors and aromas.

Tasting Notes: unCommon Passion is a clear golden ale, highly carbonated with a light, fizzy head. This beer has a strong aroma of berries and tropical fruit with a light malt backnote. The flavor starts with bright tropical fruit and finishes with a slight citrus bitterness and thirst quenching light mouthfeel.

This is our take on the traditional Radler (German for “cyclist”), a light and refreshing “beer cocktail.” Bike not included.
