

# SHAPE SHIFTER IPA CYAN SUN (SESSION IPA)

**Alcohol:** 4.5%

**IBUs:** 64

**SRM:** 4 (Pale yellow / gold)

**Grain Bill:** NY Pale Malt, NY Red Winter Wheat Malt, and CaraPils

**Hops:** NY Michigan Copper and NY Chinook added to the end of the boil, and NY Cascade and Azacca added to the whirlpool. Dry Hopped with Multi-Head, Azacca, and NY Cascade to add tons of tropical fruit flavor and aroma.

**Brewing Notes:** Mashed at a lower temperature to create a crisp, dry finish. Generous hop additions added into the whirlpool and an aggressive dry hop give this beer a tropical fruit flavor and aroma.

**Tasting Notes:** This session style IPA is slightly hazy and golden in color, with an aroma full of peach and guava. It's a light bodied beer with pineapple, peach, and candied orange peel flavors, finishing light and crisp with very little bitterness.

16 oz cans
